THE INTERNATIONAL SPORT PEDAGOGY INDIVIDUAL SCHOLAR DAY SCHEDULE

2:15 pm | Registration Check In

2:45 pm | Welcome by Dr. Dan Ninham

3:00 pm | Research presentation: Evolution of School-based Exergaming Interventions: Exergaming refers to active video games that are also a form of exercise, such as Wii Sports, Wii fitness, Kinect Sports, and DDR. These active video games are very popular among the children and adolescence, and are widely used at schools these days. This presentation will highlight the evolution of Dr. Zan Gao's school-based exergaming interventions in the past 10 years. Professional Development Area: Accommodation, Modification, and Adaptation of Curriculum, Materials and Instruction and Technology

4:00 pm | Workshop: Application of Smart Device Exercise App in Physical Education: Recent literature supports the integration of mobile app into physical education classes as a means to enhance communication, management, and instruction. As such, physical education teachers have recently employed exercise-related mobile app to facilitate instruction and management while being able to garner technology-savvy children's attention and interest. This workshop will showcase the detailed information concerning applying exercise app in physical education class. Professional Development Area: Accommodation, Modification, and Adaptation of Curriculum, Materials and Instruction and Technology

4:50-5:05 pm | Refreshment Break

5:10 pm | Task Presentation: Task Presentation in physical education refers to the collected strategies for providing students with necessary learning task information. This workshop will highlight five components of task presentation (Attention Sequence or organization; Clarity of communication; Way to communicate; and Learning cues) in combination with some hands-on experience. Professional Development Area: Accommodation, Modification, and Adaptation of Curriculum, Materials and Instruction
